

A square maze with a green dot at the top-left corner and a red dot at the bottom-right corner. A blue line traces a path from the green dot to the red dot, navigating through the maze's corridors and avoiding walls. The path starts at the green dot, moves right, then down, then right again, and continues to wind through the maze, eventually reaching the red dot at the bottom-right corner. The maze is composed of black lines forming walls and white space forming paths. The blue line is a single continuous path connecting the start and end points.
