

A square maze with a complex network of black walls. A blue line traces a path from a green circular start point at the top-left corner to a red circular end point at the bottom-right corner. The path starts at the top-left, moves right, then down, then right again, and continues through various turns and dead ends, eventually reaching the bottom-right corner. The maze is composed of a grid of squares, some of which are blocked by walls, creating a single continuous path from the start to the end.
