

A square maze with a complex network of black walls. A blue line traces a path from a green circular start point at the top-left corner to a red circular end point at the bottom-right corner. The path starts by moving right, then down, then right again, and continues through various turns and dead ends until it reaches the end point. The maze is composed of a grid of squares, some of which are blocked by walls, creating a single continuous path from start to finish.
